TECHNICAL PARAMETERS

Total moisture content	**< 8%**
Ash content	**< 0.35 %**
Calorific value	**> 18 MJ/kg**
Bulk density	**600 < BD < 750 kg/m^3**
Fine fraction content (dust in bag)	**⩽ 0.3%**
Mechanical strength	**> 98.5%**
Diameter	**6 mm**
Length	**3.15 < L < 40 mm**

PACKAGING

Unit packaging	**15 kg bags, 1000 kg big bags**
Bulk packaging	**90 x 110 cm pallet/100 x 120 cm**
Bulk	

STORAGE

It is advisable to store the pellets in dry rooms that are not exposed to extreme weather conditions. The bags should be insulated from the ground by being stored on pallets.

PRODUCT CHARACTERISTICS

Production is carried out using selected, extremely clean and dry pine sawdust.

The amount of ash that remains after combustion is unprecedentedly low.

The product is characterised by a very high calorific value.

Convenience – pellets packaging size includes practical 15 kg bags.

Clean use – unlike other solid fuels, pellets do not soil.

Held certification guarantees the highest quality and repeatability of the product batch.
